## Box I Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box II Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The claim describes the following two inventions:

- (1) a group of inventions of claims 1-8 relating to a process for producing a compound of the general formula (VII) from a compound of the general formula (V), and
- (2) a group of inventions of claims 9-11 relating to a process for producing a compound of the general formula (II) from a compound of the general formula (I).

Group (1) of inventions and Group (2) of inventions have not a technical feature in common, and are therefore not considered as relating to a group of inventions (continued to extra sheet)
